

Crazy Love

Sheena Easton

We can't change the way we were
But we can change the way we are
All I really wanted from this crazy love
Was a night so full of stars
That our hearts would not pretend
What I wouldn't give to have that
Crazy love again

And I'm holding on for sure
To your crazy love
To your crazy love
Crazy love

I've tried my life for you
But now I'm left with only one
Hanging on to pieces of what used to be
And no matter how I try
When I feel another's touch
It brings me back to why
I miss your crazy love so much

I believe in second chances
And I'm holding on for sure
To your crazy love
To your crazy love
Crazy love

I can't light a fire
Alone in the dark
Maybe if we look inside
There's still a spark

I believe in second chances
And I'm holding on for sure
To your crazy love
To your crazy love
Crazy love
