

# Dance Away The Blues

Sheena Easton

I've been waiting long enough  
I've been hurting far too much  
Ooh, there's nothing left  
Ever since you went  
Ever since you broke my heart

I turn the lights down low  
Imagine I'm with you  
And dance away the blues  
I find an old love song  
I play it all night long  
And think of you  
As I dance away the blues

Understanding love is tough  
Never being loved enough  
Living with myself  
Living on my shelf  
Only you can break this spell

What was that I heard you say  
Are you coming back to stay  
You can still be mine  
Through this tender night  
Help me keep our love alive

I turn the lights down low  
Move in close to you  
And we'll dance away the blues  
Oh oh baby, I find an old love song  
We'll play it all night long  
And start anew  
As we dance away the blues  
As we dance away the blues  
As we dance away
