

Fire And Rain

Sheena Easton

When you're down
Look over your shoulder
Can't you feel that
I'm right by your side
Can't you see your life's not over
Open the door there's no need to hide

Let me supply your (one desire)
I'm here to baby (satisfy)
You can't deny my love
Let me kiss you (tears away)
I wanna give you better days
You can't deny my love

I'll be your fire - your water
Joy and pain - your sunshine and rain

When you're love in false self-pity
I'm the one that understands your mood
When world is not so pretty - baby
I'll hold your hand and change your attitude

Let me supply your (one desire)
I'm here to baby (satisfy)
You can't deny my love
Let me kiss you (tears away)
I wanna give you better days
You can't deny my love

When there's nowhere to turn - turn to me
Need someone to cling to - I'm here
If there's a shadow of doubt
I'll be there to bring you out

I wanna be your fire
I wanna be your rain
I'll be your joy and pain
I want to be your everything

I wanna take your hand
Be there to understand
I'll be your fire and rain
I want to be your everything
