

Get Here To Me

Sheena Easton

Some is calling out
Get here to me tonight
I'm a fool without a soul
I keep believin'
There'll be a heart behind the face i find
Searching for some unlovely place of mine
You're there in my dreams
Get here to me

Something keeps telling me
Out in the crowd tonight
In another minutes time
You might be there
Somebody I'm told that every soul will find
Somebody to live inside my love this time
You're there in my dreams
Get here to me

Get here to me
Right here to me
You're there in all my dreams

Get here to me
(let my love inspire you, with a force to guide you)
Get here to me

Find me someone
I need a heart behind the face I find
Somebody to live inside my love this time
You're there in my dreams
Get here to me

Get here to me, right here to me
You're there in my dreams

Get here to me
(let my love inspire you, with a force to guide you)
Get here to me
Get here to me
(let my love inspire you, with a force to guide you)
Get here to me

Why don't you get here to me
Right now get here to me
