

# My Cherie

Sheena Easton

[R:]

My cherie  
That's what I call you  
Cause you're so dear to me  
Say you'll always stay  
Right here (my cherie)  
I'm gonna love you  
My cherie, my dear

There's nobody in this world  
Who can give me what you can  
You love me unconditionally  
You take me as I am  
You bring me happiness  
Like I've never known  
You just smile at me  
And it sets me free  
And I never wanna let you go

Cause when we're together  
The time just flies by  
Like a bird in the sky  
And baby no matter the weather  
Our love will shine  
All the time

I tell you again and again  
I'm so grateful that you're here  
You're my darling one  
You're the one I love  
You're my dear

[R]

When you call out my name you know  
It sounds so sweet and clear  
Like an old refrain  
Running through my brain  
That I never thought I'd hear  
And when we touch  
My fears just melt away  
So I'll put my trust  
In the two of us  
Cause your love makes me feel that way

It's so natural to to be wanting  
To hold you baby all through the night  
Cause when we're together  
Our bodies just sway in time  
My my my  
The way I feel for you baby  
Will never disappear  
You're my darling love  
You're the one I love  
You're my dear

[R]

You know how much I love you babe  
Ooh I really need you babe  
You're my my cherie amor  
Oh, oh, oh, oh  
You know how much I love you babe  
You're my my my my...

[R]

It's so natural to to be wanting  
To hold you baby all through the night  
Cause when we're together  
Our bodies just sway in time  
My my my  
The way I feel for you baby  
Will never disappear  
You're my darling love  
You're the one I love
