

# One Man

Sheena Easton

You come to me  
Tired and defeated at the end of the day  
I look in your eyes  
I understand when there is nothing to say  
But even when you think you're betting zero  
You know with me you'll always be my hero

[R:]

One man for me as long as he is you  
My perfect lover and I'll never want another  
You fill me up with precious love  
No one can ever come between us  
Cause I only want to be with one man

I know you worry  
Cause you can't give me all the fine things in life  
But baby don't be sorry  
I got my dream the day you made me your wife  
I'll love you rich, I'll love you poorer  
Cause your love's the only thing  
I can be sure of  
Every day of my life

[R]

I'm into one man  
I'm into one man

You touched the heart of me  
The day you took my hand  
If anyone can last forever  
I know we can

[R]
