

Till Death Do Us Part

Sheena Easton

What are promises
After they've been broken
When I hold you in my arms
I trusted love
Skies were blue then
Our love was all that mattered
Forever only lasts until
The magic ends

[R:]
Oh oh oh oh oh
You told me you would never break my heart
'til death do us part
Oh oh oh oh oh
You belong to me
I belong to you my love
'til death do us part

I loved the way you smiled
The way you touched each moment
With the wonder of a child
You touched my soul
A storm was moving in
Somewhere in the distance
We pretended we'd survive
But not this time

[R]
How do I laugh when I want to cry
How do I live when I want to die
I never thought I would say goodbye to you
(I'd never say goodbye)
'til death do us part

How do I shake all the memories
A part of you still lives inside me
I told you I would never break my heart
(oh no no never)
'til death do us part

What would it be like
If we tried a little harder

Not to let it go
I guess we'll never know
Was what we shared just only wasted time

When we lost each other
I know we both discovered
Something beautiful had died
So I guess we didn't lie after all
'til death do us part

[R]
How do I laugh when I want to cry

How do I live when I want to die
You told me you would never break my heart
'til death do I part

How do I shake all the memories
A part of you still lives inside of me
I told you I would never break my heart
'til death do us part
