

## Perfect Time

Sheila On 7

Tonight is the perfect time  
Pack my things and try  
Remember all the words that went bad  
These hands you should hold  
This heart you should keep  
Let the stars above us replace all the falling tears  
\*Would it be better if we were never near  
Knowing you more has always been my fear  
Let's say goodbye to find a better place  
Before it's too late  
Reff:  
There is always a way for love  
But sometimes not on the same road  
Dreaming is the only land fits for you and me  
(2x)
