## **Black Light Blue**

Black light blue Heaven's perfect hue The ultimate possession The game you couldn't lose

The voice in the corner
The song you hardly knew
The terrible admission
Some tragic lonely tune
Slow the spanish dancer on a stage

Black light blue
Is tearing me in two
A mad revelation
Shakespeare isn't true
The raising of the glasses

The falling into sin

Dying in the desert

The loners lonely end

In the shifting sand oasis

Black light blue Cock-a-doodle-do Calling for the innocent The taming of the shrew

The muting of the colors
The mystical review
Trying for forever, is what you'll never do
There you stand, alone
Black light blue
