

Even Angels

Shelby Lynne

You went and did it, big time
You let your heart get in the way, what a crime
You are so innocent, can't tell a lie
But you know
Even angels fall down sometime

You're like a little bird on a wire
Hanging on to earth spinning wild
But hurt cut you loose and you fell into the fire
You know
Even angels fall down sometime

Your lovely wings flew straight into a cloud
The weather changed and brought you to the ground
They're in need of repair and some tender love and care
True love waits for you up there

Ooh it's a miracle that you survived
When you put your soul out there like a lion
You wear a tender sword close by your side
But you know
Even angels fall down sometime
You know
Even angels fall down sometime
But you know
Even angels fall down sometime
Yeah, even angels fall down sometime
