

## In Praise Of Others

Shelter

Well, it's hard to glorify others due to my  
Intense pride  
Even amongst friends you'll find I sit and criticize  
That's what I do best, it's how I forget my actual size  
A leash that ties me to this world  
Yeah, a wicked mind brought me to this world, Lord, please help  
me move forward  
I've been guilty so long, I know that I'm wrong, please help me  
sing this song in praise of others  
In praise of others  
In praise of others  
In praise  
Can I glorify others, my sisters or my brothers or anyone else?  
Each fault that I find in you I find tenfold in myself  
Envy, a disease, it's inside of me  
But I'm the loser in the end  
Yeah, a wicked mind brought me to this world, Lord, please help  
me move forward  
I've been guilty so long, I know that I'm wrong, please help me  
sing this song in praise of others  
In praise of others  
In praise of others  
In praise  
Hey  
I should have blamed myself  
Instead of everyone else  
But God forbid they find fault with me, we're instant enemies  
How dare I see myself honestly as others may see  
A proud fool, I turn away, won't hear what they say, it might benefit me  
But I remain tied in this net of pride but I wanna be free  
Yeah, a wicked mind brought me to this world, Lord, please help  
me move forward  
I've been guilty so long, I know that I'm wrong, please help me  
sing this song in praise of others  
In praise of others  
In praise of others  
In praise  
Praise of others
