

# I'll Go Down Loving You

Shenandoah

On the ropes and I'm going down swinging  
A thread of hope, but I'm still hanging on  
As the distance in between us grows  
And your silence feels like cuts and blows  
I'm fighting scared, but I'm not leaving here

If I lose, I'll go down loving you  
This things not through, I'll fight till the end for you  
And if we win, if we start all over again  
No matter what we do, I'll go down loving you

People change, girl, we're no different  
Love is strange, you just never know  
When the feelings that you thought you had  
Turn inside out from good to bad  
I'll still be strong and I'll be holding on

And if we win, if we start all over again  
No matter what we do, I'll go down loving yo
