

Little Bit of Livin'

Shenandoah

A little sip of somethin' on a Friday night
A little buzz a-burnin' never felt so right
Pretty little thing, gonna let you by
A little sip of somethin' on a Friday night

A little bit of nothin' on a long hard day
Watching all your troubles just drift away
Skip a couple rocks, count a couple waves
A little bit of nothin' goes a long, long way

Life can be so tough
But it don't have to be
There's more to livin' than just
Mere catastrophes
All the small stuff
Well if you're askin' me

A little bit of this and a little bit of that
A little bit'll be the best you ever had
If you ain't got a little, better get you some
A little bit of livin' never killed no one

A little bit of grass 'tween your little bitty toes
A pretty little smile makes you [?]
Watch the world turnin' nice and slow
A little bit of grass 'tween your little bitty toes

You know life can be so tough
But it don't have to be
There's more to livin' than just
Mere catastrophes
All the small stuff
If you're askin' me

A little bit of this and a little bit of that
A little bit'll be the best you ever had
If you ain't got a little, better get you some
A little bit of livin' never killed no one

A-come on over, put your head on my shoulder
Let's get the thing swingin' all night long
No better feeling, you and me are chillin'
Literally dancin' with the lights off

Don't that sound like fun
Yeah, a little bit of livin' never killed no one
(Two, three, four)

Life can be so tough
But it don't have to be
There's more to livin' than just
Mere catastrophes
All the small stuff
But if you're askin' me

A little bit of this and a little bit of that
A little bit'll be the best you ever had

If you ain't got a little, better get you some
A little bit of livin' never killed no one
A little bit of livin' never killed no one
