

One Kind Of Woman I Like

Shenandoah

There's only one kind of woman I like, there's only one kind of
woman I like

When she comes along I'm gonna love her for the rest of my life

There's only one kind of girl of my dreams

One that'll want to be my everything

That's the kind of woman one kind of woman I like

She's got to be taller than four foot six

And shorter than six foot two

She'll probably have a pretty little turned-up nose

And baby-blue eyes just like you

There's only one kind of woman I like, there's only one kind of
woman I like

When she comes along I'm gonna love her for the rest of my life

There's only one kind of girl of my dreams

One that'll want to be my everything

That's the kind of woman one kind of woman I like

She's gotta be a little bit a up-town girl

Dancing in her cowboy boots

Somewhere between Madonna

And my teacher in Sunday school

There's only one kind of woman I like, there's only one kind of
woman I like

When she comes along I'm gonna love her for the rest of my life

There's only one kind of girl of my dreams

One that'll want to be my everything

That's the kind of woman one kind of woman I like
