

The Road Not Taken

Shenandoah

Go to work for the old man couldn't finish school
No, not me I had bigger plans stubborn as a mule
I didn't listen to no one that's the way I learn
I wonder where I'd be now if I'd only turned

Down the road not taken
And married the girl back home
Down the path forsaken
And not like some rolling stone
Would I only trade regrets
If I could retrace my steps
And go down the road not taken

Got a box full of pictures that I don't show my wife
She won't catch me in a daydream of another life
Momma's sick and my dad's retired, I call them on the phone
To tell me where I'd be now if I'd only gone

Down the road not taken
And married the girl back home
Down the path forsaken
And not like some rolling stone
Would I only trade regrets
If I could retrace my steps (if I could retrace my steps)
And go down the road not taken

Down the road (down the road) not taken
And married the girl back home
Down the path forsaken
And not like some rolling stone
Would I only trade regrets
If I could retrace my steps (if I could retrace my steps)
And go down the road not taken

Down the road (down the road) not taken
And married the girl back home
Down the path forsaken
And not like some rolling stone
Would I only trade regrets
If I could retrace my steps (if I could retrace my steps)
And go down the road not taken
