

# When You Were Mine

Shenandoah

I need to fix that crack there in the floor  
It grows a little wider every year  
The winter wind keeps whistling through the door  
A lonesome song that I don't wanna hear  
But I guess I'll let it go another day  
It really doesn't matter anyway

But when you were mine  
The home team won the series  
And the good guys got the girls in the end  
When you were mine  
The sun shone so much brighter  
On a world that hasn't turn the same  
Since when you were mine

I suppose I'll find someone again  
Better late than never, so they say  
But I could've been the best I could've been  
If I hadn't let you slip away  
Just as soon as I get over you  
I'll do all the things I didn't do

When you were mine  
The home team won the series  
And the good guys got the girls in the end  
When you were mine  
The sun shone so much brighter  
On a world that hasn't turn the same  
Since when you were mine

Since when you were mine
