

## Forever

Shift K3Y

Baby I don't know what I've done  
Could have been the one forever  
Baby, can't you see what we've lost  
I could have been the ones forever

There's this feeling in the air  
That you're with somebody now  
When I call you're never there  
Does he take you to a another town  
(I know what you've done, I know that you know it too)  
But I'm just a fool  
(I'm trying to run, but I just can't break loose)  
Cause I'm stuck to you

Baby I don't know what I've done  
Could have been the one forever  
Baby, can't you see what we've lost  
I could have been the ones forever

Baby I don't know what I've done  
Could have been the one forever  
Baby, can't you see what we've lost  
I could have been the ones forever

Got a feeling in the air  
Whenever I'm not at home  
Tell myself I don't care  
Tell myself I don't wanna be alone  
(I know what you've done, I know that you know it too)  
But I'm just a fool  
(I'm trying to run, but I just can't break loose)  
Cause I'm stuck to you

Baby I don't know what I've done  
Could have been the one forever  
Baby, can't you see what we've lost  
I could have been the ones forever

Baby I don't know what I've done  
Could have been the one forever  
Baby, can't you see what we've lost  
I could have been the ones forever
