```
I know what you're looking for
But I'm not that guy and I'm not that type
Twilight you haven't seen before
Cause I'll make you up just a little bit more
I know what you're looking for
But I'm not that guy and I'm not that type
Twilight you haven't seen before
Cause I'll make you up just a little bit more
Type, I know, I know, I know
I know what you're looking for
But I'm not that guy and I'm not that type
Twilight you haven't seen before
Cause I'll make you up just a little bit more
Type, I know, I know, I know
I know what you're looking for
But I'm not that guy and I'm not that type
Twilight you haven't seen before
Cause I'll make you up just a little bit more
I know what you're looking for
But I'm not that guy and I'm not that type
Twilight you haven't seen before
Cause I'll make you up just a little bit more
Type, I know, I know, I know
Type, I know, I know, I know
```

Type, I know, I know, I know Type, I know, I know, I know
