

# Only You

Shift K3Y

I wanna take you home tonight  
And do what I feels so right, gonna give it to you  
Running my fingers up and down your spine  
And I don't wanna fight the thoughts that I have about you

Baby, did you know that  
I came here for you, girl  
No other can satisfy  
Baby, did you know that  
I came here for you, girl  
Tell me, baby, did you know that  
A feeling that only you provide

Only you  
Came here for only you  
Girl, girl  
Only you  
Came here for only you  
Baby, did you know that  
I came here for you, girl  
Tell me, baby, did you know that  
A feeling that only you provide

A feeling that only you  
A feeling that only you  
Only you can provide (a feeling that only you, only you)  
Only you can provide

I wanna take you home tonight  
And do what I feels so right, gonna give it to you  
Running my fingers up and down your spine  
And I don't wanna fight the thoughts that I have about you

Baby, did you know that  
I came here for you, girl  
No other can satisfy

Baby, did you know that  
I came here for you, girl  
Tell me, baby did you know that  
A feeling that only you provide
