

## Cheap As

Shihad

All our lovely children don't matter any longer  
He who owns the drilling owns the national paper  
Pays off those elected meant to do our bidding  
Place another order sitting in the sunshine

When somebody stands up sees the contradiction  
Buy up all the papers put them out of business  
Now they feed the masses trivia and fear  
When somebody stands up and offers a solution

Cheap  
Cheap as Fuck

Influence  
Beyond law  
Behind doors  
They do whatever they want

Bend to multinationals corporate agendas  
Do a deal with China go out on a bender  
Block out all your baggage make it disappear  
Wake up with a headache suffering from the fear

Join a private army make yourself a killing  
Endless propaganda feed it to the masses  
Keep them on a diet trivia and fear  
Sell off all your assets it all ends in tears

It's all kicking off
