

Lucifer (English)

SHINee

Even if I try to avoid you, I can't find a place to hide
I'm trapped by you, who I can't even deny
If it was love, if you really loved me, don't do this to me
Her whisper is the Lucifer

If you tie me down and trap me
Then the love is also tied down
The future is also tied down
It can't grow anymore
Freely empty yourself and look at me
I'll fill you only, I'll completely fill you only

Your undeniable spell is the Lucifer
Your undeniable magic is the Lucifer
When I approach you
With your angelic face
Say the reason you live is for me
Say it

When I first saw you, I stopped for a short time
As if someone was tightly seizing my heart, not letting it go
(Still) You took all, all, all, all, all, all of my heart just like that
You make my heart burn out when you're not here

If you tie me down and trap me
Then the love is also tied down
The future is also tied down
It can't grow anymore
Freely empty yourself and look at me
I'll fill you only, I'll completely fill you only
Loverholic, robotronic, loverholic, robotronic

The love stories I shared with you
You look towards the same places I do
When we feel that we can't get any more perfect
Only stare at me, you want me more, more, more, more, more, more
Only look at me, you're the center of everything, thing, thing, thing, thing
, thing

Since before, something has been wrong, you've been weird
The love I knew left my side, one by one
All I have is you

If you tie me down and trap me
Then the love is also tied down
The future is also tied down
It can't grow anymore
Freely empty yourself and look at me
I'll fill you only, I'll completely fill you only

I feel like I've become a clown trapped in a glass castle
I dance for you, who will never be satisfied
You look into me openly, touching my brain
I think I've become a fool
I think I'm only getting more and more attracted to you

Loverholic, robotronic, loverholic, robotronic

It's not that I hate you or that I dislike you
It's just that kind of stare is a burden is all
I'm not going anywhere
I've waited like this by only looking at you

Your stare captures me
As the days went by, it became sharper
I'm tired of your obsession
I've been cut a lot, my heart is bleeding
When it's about time for me to pass out
She comes to me like an angel, saying "I love you"
Even though I knew it was really you
You really confused me

If you tie me down and trap me
Then the love is also tied down
The future is also tied down
It can't grow anymore
Freely empty yourself and look at me
I'll fill you only, I'll completely fill you only

I feel like I've become a clown trapped in a glass castle
Leave me alone, when I'm free, I'll be able to truly love you
Leave me alone, don't make me sick of you
So I can truly look at you

If you tie me down and trap me
Then love is also tied down
The future is also tied down
It can't grow anymore
