Hey you know? When you hear this song
Isn't that when it started? This feeling
When we said let's go find a fun place
Our feelings connected
(Here we go)

Come on Come on Come on Come on
Stretch out your hand
So it can become a green sea
Come on Come on Come on Come on
Rise up to the sky
What we see before you and I
Shout at this very moment

Raise your hands
The tip of our fingers are about to touch
So we don't lose the light for a long time
The love you drew
As you remembered the moment we met
(One step One step)
The love I drew
(Two steps Two steps)

So Amazing
As our fingertips touch
A cool wind blows
Why do I have butterflies
Will you remember only this?
So we can remember for a long long time

As I watch you walking down this street
I think that's when this love started
A sweet wind blowing on this street of ours
And the butterflies
(Here we go)

Come on Come on Come on Come on
Stretch out your hand
So green waves can come rushing in
Come on Come on Come on Come on
Rise up to the sky
We can see happiness at the end of this road

Raise your hands
The tip of our fingers are about to touch
So we don't lose the light for a long time
The love you drew
As you remembered the moment we met
(One step One step)
The love I drew
(Two steps Two steps)

So Amazing
As our fingertips touch
A cool wind blows
Why do I have butterflies
Will you remember only this?
So we can remember for a long long time

Spin around
One two step
Way to happiness
This is my confession
Now open this small box

Raise your hands
The tip of our fingers are about to touch
So we don't lose the light for a long time
The love you drew
As you remembered the moment we met
(One step One step)
The love I drew
(Two steps Two steps)

So Amazing
As our fingertips touch
A cool wind blows
Why do I have butterflies
Will you remember only this?
So we can remember for a long long time

So we can be eternal for a long long time
