

If I Lost You

Shiny Toy Guns

We stay up every night
We fade away
But now you're living in a dream
I'm torn apart from the one I love
Oh, my baby. Where have you gone?
You know I'm sending angels to watch you sleep
Cuz I'm always on the run

And I don't know what I'd do if I lost you
And what in the world would I do without you?

I try to picture memories we made
On these cold and lonely nights,
Sometimes it's hard to see your face
Soon, my baby, when I return
I swear we'll make up every moment to erase the morning sun

And I don't know what I'd do if I lost you
And what in the world would I do without you?
I wonder what I'd do if I lost you
And what in the world would I do without you?

And I don't know what I'd do if I lost you
And what in the world would I do without you?

I wonder what I'd do if I lost you
I wonder what I'd do if I lost you
I wonder what I'd do if I lost you
I wonder what I'd do if I lost you
I wonder what I'd do if I lost you
I wonder what I'd do if I lost you
I wonder what I'd do if I lost you
I wonder what I'd do if I lost you
