

Stay Down

Shiny Toy Guns

If I stay or if you go
Two halves but never a whole
And when you fall asleep alone
Are you dreaming of all of the things
That I will never know?

They're all the lies you turn to red
(I've got this feeling again)
I should be living like you're dead
(I've got this feeling again)

Stay down
Don't let your cover go away
Under this rain cloud
Stay down
Don't let your cover go away
On our way out

The spies have come for your arrest
Tongue tied with the curse from your lips
And don't you say what you'll regret
Don't crucify what's nailed above my head
And now you're reaching for my hand
(I've got this feeling again)
'Cause you are sinking in the sand
(I've got this feeling again)

Stay down
Don't let your cover blow away
Under the rain clouds
Stay down
Don't let your cover blow away
On our way out
our way out

Oh, oh, oh

The cover explodes when dying stars
Take their last breath
I've got this feeling again
We trip but the lightning still sticks up
And I've got this feeling again

Stay down
Don't let your cover blow away
Under this rain cloud
Stay down
Don't let your cover blow away
On our way out
On our way out
On our way out
