

Can I Turn It All Around

Shirley Bassey

What happened to my hopes?
What happened to my dreams?
What happened to my world?
It feel apart
I never used to fear
for with every passing year
time stood still just for me
now I feel the years time won't let me be

How can I turn it all around?
Turn it upside down
and start all over
can I do it all again
Get a second chance
to get it right

What happened to my faith
What happened to my heart
what happened to the flame that burns so bright
I should have questioned why as so many years flew by
I stood still foolish pride
now this emptiness is all I've got inside

How can I turn it all around?
Turn it upside down
and start all over
can I do it all again
or did I throw it all away

curtains rising on the next act of this play
what will I do?
what will I say?
just an extra backstage without a line
when I was so sure I'd have the role of a lifetime

Can I turn it all around
Turn it upside down
and start all over
can I do it all again
or will I throw it all away
or will I throw it all away
What happened?
