

# The Girl from Tiger Bay

Shirley Bassey

There's a crack in every pavement  
Underneath there is a beach  
It's been a long time longing  
As history repeats

Yes many times I've wondered  
Why a part of me remains  
In a place so full of beauty  
That somehow never changed

I bought a ticket of a lifetime  
There's no denying who I am  
Forever young, I will stay  
The girl from Tiger Bay

Time has me believing  
That there's nothing left to prove  
I feel the love within me  
And love can't be removed

All the memories and the scars  
They dance away into the stars
