

What's Done is Done

Shirley Bassey

Now, what's done is done
We played out time and loved played on
The seasons change and we look on
To what will come, what's done is done

Now, what's gone is gone
The morning rain, the summer sun
The joker smiles, we carry on
We carry on

We've played out time
Caught between emotions we found easy to find
We've been living in the shadow much too long
Let's be together again, back where we belong
We've been living in the shadow much too long
We'll find it soon

And we look on
To what will come
What's done is done

We've played out time
Caught between emotions we found easy to find
We've been living in the shadow much too long
Take me where the sun is shining now
