

From Here to Eternity

Shooter Jennings

Someone talking about the musical
Someone talking about the musical
Someone talking about the musical
Someone talking about the musical
Someone talking about the musical
Someone talking about the musical
Someone talking about the musical
Someone talking about the musical

Oh baby maybe because we loving
It leaves me nothing nothing left me
Oh baby, baby's got me silent
Lately I've been dying dying on me

From here to eternity
Oh that's where she takes me
From here to eternity
She does she does she does
From here to eternity
Oh that's where she takes me
From here to eternity
She does she does she does

Oh yeah
Oh baby maybe makes me feel good
Feels good now she likes me
Love won't end oh baby nothing is easy
Easy how she loves me
Love me once again

From here to eternity
Oh that's where she takes me
From here to eternity
She does she does she does
From here to eternity
Oh that's where she takes me
From here to eternity
Oh those things are lost in lust
From here to eternity
Oh that's where she takes me
From here to eternity
Oh those things are lost in lust

Imagine taking your mind on a
Rollercoaster trip
