

I don't live here, I'm just visiting
An old friend who says he's getting older
But we're all getting older everyday anyway
We keep walking around, walking around
Walking around this tiny town
Where it won't stop raining

[Chorus:]
We're still waiting
For our friends to show up
We're always waiting

I came out to Olympia
Drank and walked through the harbor
Tried to not think about her anyway
I'm spinning around, spinning around
Spinning around in a whirlwind now
And it won't stop raining

[Chorus]

Well, it stopped raining
And we stopped waiting
Our friends have shown up right at the front door
