

Burn You Down

Short Stack

I'm bulletproof you can't break me
I've got nothing to lose and only romance in sight
And I just want to burn it down tonight

You are a miracle
You fuck me up and I love you like it's criminal
You say stop being so heartless

I'm just getting started
I just want to burn you down tonight
I'm just getting started
I just want to burn you down tonight
I'm just getting started
I just want to burn you down tonight
I'm just getting started
I just want to burn you down tonight

I'm skin and bones so let's face it
Got nothing to lose because I've got nothing at all
So stop me if you've heard this one before

You are a miracle
You fuck me up and I love you like it's clinical
You say stop being so heartless

I'm just getting started
I just want to burn you down tonight
I'm just getting started

I'm just getting started
I just want to burn you down tonight
I'm just getting started
I just want to burn you down tonight
