

Homecoming

Short Stack

This is the sound of drums
This is me coming clean
I'm tired of feeling numb
With nothing in between
As we explode tonight
I wanna feel your touch
The way it feels inside
I missed you oh so much

But I can not deceive you
When I need you
And the joy you bring
And they will hear me sing

Wooh, wooh
This is my homecoming
This is my homecoming
Wooh, wooh
This is my homecoming
This is my homecoming

This is the sound of drums
As we go up in flames
We'll tell our daughters sons
Of how the kingdom came
As we explode tonight
I wanna feel your touch
The way it feels inside
I missed you oh so very much

But I can not deceive you
When I need you
And the joy you bring
And they will hear me sing

Wooh, wooh
This is my homecoming
This is my homecoming
Wooh, wooh
This is my homecoming
This is my homecoming, oh

I missed you more than ever, oh
I missed you more than ever
Take my life and
I can never leave you from my mind
I missed you more than ever
I missed you more than ever, no

Wooh, wooh
This is my homecoming
This is my homecoming
Wooh, wooh
This is my homecoming
This is my homecoming

Wooh, wooh

For all the joy you bring
For all the joy you bring
Wooh, wooh
This is my homecoming
This is my homecoming
