

Help me father,
I don't think I'm
Ever gonna calm down, ever gonna calm down;
I could start a riot in my head,
Just watch me burn

I keep my soul,
Stashed between an
Angel and an ashtray, angel and an ashtray;
I could start a quiet riot,
But I got no soul

(So watch did you expect from me?
Be careful with those words;
The blackest eyes you've ever seen,
Are coming your way sir!)

But I got no soul (Sense the fear),
Call the doctor (Sense the fear),
I can't stop her (Sense the fear)
We're keeping the faith, (yeah) we're keeping the faith alive

But I got no (Sense the fear),
Call the doctor (Sense the fear),
I can't stop her (Sense the fear)
We're keeping the faith, (yeah) we're keeping the faith alive

Help me father,
I don't think I'm,
Ever gonna stop now, ever gonna stop now;
I started a war,
Because I could,
And all you did was hold me down

(Is this what you expect from me?
My candle in the wind;
Well I'm sorry you non-believers,
Patience is running thin)

But I got no (Sense the fear),
Call the doctor (Sense the fear),
I can't stop her (Sense the fear)
We're keeping the faith, (yeah) we're keeping the faith alive

But I got no (Sense the fear),
Call the doctor (Sense the fear),
I can't stop her (Sense the fear)
We're keeping the faith, (yeah) we're keeping the faith alive,
We're keeping the faith, (yeah) we're keeping the faith alive

But I got no (Sense the fear),
Call the doctor (Sense the fear),
I can't stop her (Sense the fear)
We're keeping the faith, (yeah) we're keeping the faith alive

But I got no (Sense the fear),
Call the doctor (Sense the fear),

I can't stop her (Sense the fear)
We're keeping the faith, (yeah) we're keeping the faith alive,

We're keeping the faith, (yeah) we're keeping the faith alive
We're keeping the faith
