The Mercury

Short Stack

```
I wrapped your heart around the sleeves of time
That misery would swallow me and I'd become the night
But I won't rest unless you're by my side
Yeah, I wont rest unless you're by my side...

...Right?

There's no place I would rather be than here.
There's no place I would rather be than here.
There's no place I would rather be than here.
There's no place I would rather be than here.
