Bled dry, A bullet never lies Look into my eyes girl, Would i lie to you? Stained grave, Do you feel the same way Tears run down my spine girl Would i lie to you? Start the engine to my car I feel that romance will take the back seat (tonight) Part the seal to my heart, I feel, that my chance is under the moonlight CHORUS (X2) Watch the world (it's a disater) Let it bleed (forever after) As i lay you took my breath away... Sorrow wait until tommorow Hold me close never go Know that i would lie to you Insane, i still feel that sharp pain Running down my spine girl Girl i'd die for you CHORUS (X2) Watch the world (it's a disater) Let it bleed (forever after) As i lay you took my breath away.. Forever just won't be the same Still i forgive you the pain Take these broken wings fly from the heart you stole.. I cut an address on the floor Still i forgive you once more, Take these broken wings fly from the heart you stole.. Watch the world Let it bleed As i lay you took my breath away.. Watch the world Let it bleed As i lay you took my breath away Watch the world (it's a disater)

Let it bleed (forever after)
As i lay you took my breath away..
