

# Wendy

## Short Stack

Close your eyes,  
I can't see you  
Any more than i can see me here with you  
And I'll defy the whole galaxy  
Just to be here in your arms under the moon

Just so you know  
I'm in over my head  
And i can't touch the ground  
But nothing is going to stop me now

Wendy  
We'll defy the stars together on the moon  
For you singing  
Wendy  
So just wrap your arms around me  
Forever, forever for you

Dry your eyes, little darling  
And I'll break just like china doll in blue  
And my disguise  
Little darling  
Is a hole inside my heart that's built for two

Just so you know  
I'm in over my head  
And i can't touch the ground  
But nothing is going to stop me now

Wendy  
We'll defy the stars together on the moon  
For you singing  
Wendy  
So wrap your arms around me  
Forever, forever, for you

(Wohh!)

This is the last time  
I won't apologise to you  
No matter what I've done  
This is the last time  
Looks like we won't pull through  
So baby let it shine  
So baby let it shine

So baby let it shine!  
We'll defy the stars together on the moon  
For you singing  
Wendy  
So wrap around me  
Forever, forever for you

Wendy  
We'll defy the stars together on the moon  
For you singing  
Wendy

So wrap around me  
Forever, forever for you...
