## Shotgun Messiah

Outta gas in the dead of night  
Is it for real  
Hot lust turns to stone cold fright  
Say how you feel

Me and my date  
Down on lovers lane  
Gettin' so late  
Is there something waitin' out in the rain

Nervous  
Tickle your spine, can't get rid of the feelin'  
You're nervous  
Freeze frame of mind 'cause you know it's for real  
And you're nervous

Shut up, did you hear that sound  
Is it for real  
Too quiet, is there someone 'round  
Say how you feel

Me and my date  
And we're parked alone  
Gettin' so late  
"Do you want to hear something really scary?"

Nervous  
Tickle your spine, can't get rid of the feelin'  
You're nervous  
Freeze frame of mind 'cause you know it's for real  
And your...  
Nervous  
Voices in the nite, vanish in the shadows  
Have you ever heard a dream talking  
Well I did, I did, I did

(-Solo-)

Wake me gently from this dream  
Nothing's what it seems

Nervous  
Tickle your spine, can't get rid of the feelin'  
You're nervous  
Freeze frame of mind 'cause you know it's for real  
And you're...  
Nervous  
Tickle your spine, can't get rid of the feelin'  
Freeze frame of mind 'cause you know it's for real  
And you're nervous
