

Revolution

Shotgun Messiah

got me on the edge
got me freakin' out
can I trust my doctor when he says there is no doubt
I'm alive
yeah, alive

burning up the streets
pounding in my brain
I know it's getting closer, feel it ripping thru my veins
I'm alive
yeah, alive

welcome to the end of the world

something's coming, feel it in my soul
revolution
streets in fire, heads are gonna roll
revolution

no use running, nowhere left to go
it's coming, something's gotta blow

burning in my flesh
breeding in the night
I'm running thru a tunnel, getting closer to the light
I'm alive
yeah, alive

here we go again, my name tag's on my toe
but, mister, I'm still breathing and I really gotta know
I'm alive
so fuckin' 'live

welcome to the end of the world

something's coming, feel it in my soul
revolution
streets in fire, heads are gonna roll
revolution

no use running, nowhere left to go
it's coming, something's gotta blow

something's coming, feel it in my soul
revolution
streets in fire, heads are gonna roll
revolution

no use running, nowhere left to go
revolution
it's coming, something's gotta blow
revolution

(wailin' time...)

no use running, nowhere left to go
it's coming, something's gotta blow
