

## In New Europe

### Shout Out Louds

It's about time  
I need to get it off my chest  
Gonna ride the sea  
Go watch the sunset in the west

I don't watch the time  
It's not that I don't love you  
The sun sets in the way you blow into

So I dance with myself  
In new Europe, oh yeah  
So I dance with myself  
In new Europe, oh yeah

What's a dream come true  
Some old intellect form  
Was that your dream or mine  
Washed up on the shore

Well somewhere down the line  
You poured water on my head  
And maybe I wake up  
Maybe it's not the end

So I dance with myself  
In new Europe, oh yeah  
So I dance with myself  
In new Europe, oh yeah

So I dance  
Pressing my heart back into my chest  
Cutting off all my senses  
Cutting off all my senses

I think I know what the problem misses  
Probably exactly like mine  
(Probably exactly like mine)  
I think I know what the problem misses  
Exactly like mine

So I dance with myself  
In new Europe, oh yeah  
So I dance with myself  
In new Europe, oh yeah

So I dance  
Pressing my heart back into my chest  
Cutting off all my senses  
Cutting off all my senses

It's about time  
I need to get it off my chest  
Gonna ride the sea  
Go watch the sunset in the west
