'68 Teenage Queen

Showaddywaddy

Go out with the boys, I said I'll be alright Mama
She'll never let me go to far
The man on the stage plays a way out piano
My brother's sitting in on guitar
Shifty in the corner says, "For heaven's sake - you drive that
girl to far"

She was a '68 teenage queen The prettiest girl I've ever seen A movie star in a great big car A '68 teenage queen

A man comes over, looking like a robber
She'll never let me go to far
Keep outta trouble, don't burst your bubble
She'll never let me drive her car
Shifty in the corner says, "For heaven's sake - you drive that girl to far"
