

Don't Turn Your Back On Me Baby

Showaddywaddy

Don't turn your back on me baby
'Cause I need you to help me through
Don't turn your back on me now
Such a sweet little thing I would never forget

You were only a kid, the fascination for me
In everything that you did
But now you've gone baby
and I find I need you by my side

Don't turn your back on me baby
'Cause I need you to help me through
Don't turn your back on me now
Such a sweet little thing I would never forget
But now you've gone baby
and I find I need you by my side

Don't turn your back on me baby
'Cause I need you to help me through
Don't turn your back on me now
Such a sweet little thing I would never
forget - forget - forget - forget
