

I Wanna Take You Home

Showaddywaddy

Well...

I can see little Tina
with her red frock on
She's a bit of a teaser
when she comes on strong
But beneath the frills
I can tell there's a heart of gold

She's a red-hot girl what a real beauty
And her ponytail makes her look a real cutie
Got to ask her out before I get too old
I got to ask her out before I get too old.

I wanna take you home,home,home
Wanna take you home,home,home
I wanna take you home,home,home
Wanna take you home,home,home
Oh baby please
Can I take you home?

Well...

She's dancing now
with a guy called Nick
He's a real smoothy
thinks he looks real slick
But she's glancing my way
and its time I took a chance

So I'll walk on over and I'll take her hand
And I will shake it out to a rock'n'roll band
'Til the night is over
and its time for one last dance
Until the night is over
and its time for one last dance

I wanna take you home,home,home
Wanna take you home,home,home
I wanna take you home,home,home
Wanna take you home,home,home
Oh baby please
Can I take you home?

So come on
(come on, come on)
Come on
(come on, come on)

I can see little Tina
with her red frock on
She's a bit of a teaser
when she comes on strong
But beneath the frills
I can tell there's a heart of gold

She's a red-hot girl what a real beauty
And her ponytail makes her look a real cutie
Got to ask her out before I get too old

I got to ask her out before I get too old.

I wanna take you home, home, home
Wanna take you home, home, home
I wanna take you home, home, home
Wanna take you home, home, home
Oh baby please...
Can I take you home?

So come on
(come on, come on)
Come on
(come on, come on)
