Older cats max with young godz who got the guns  
KnowwhatI'msayin son?  
Out of town Big Willie niggaz best to run  
Y'all the little y'all the youth coming up  
Or get stung by the killer bee stinga from the slums  
KnowwhatI'msayin son?  
Yo son  
Of the young Shaolin Monks, chickenheads will get done  
You the first man, you go first son

I'm Mobb Deep, in cherry Cherokees I forever be  
On some thug shit, runnin' wild through New York City  
Bustin' guns rockin' jew-els that shine like sun  
Stapleton is where I'm from  
And been down for years stayed on point like stairs (yeah, word up)  
Cause the jealous motherfuckers want to end my career  
I never feared, the ghetto is hell, but I learned ta  
Keep my mouth shut and pack a nickel-plated burner  
And squeeze, if I get front on my nine millimi  
Will have my enemies, behind trees  
Niggaz that think they live 'cause they puff a little lye  
Pack a bullshit, twenty-five, nah don't think they'll kill us

Older cats mack, roll with young godz that got the guns  
You right about that kid  
Out of town Big Willie niggaz best to run  
Now yo y'all just keep everything moving you know  
Or get stung by the killer bee stinga from the slums  
The beat is sounding like Star Trek  
Of the young Shaolin Monks, taking heads, with the tongue  
So yo, youknowwhatI'msayin son?

Yo, deep in the ocean of the Atlantic, here comes the killa falcon  
I meditate then swing with the force of mountains  
Brain cells is able to be bi-debatable  
When I think it's hazardous to your ozone layer  
A premeditated killer plan so kill the Mayor, my silencer  
Causes niggaz to hush, then I rush, like Manchus  
Who guard jewels and collect, Cash Rules with heavy jewels  
I live by name and cut veins  
Burning bodies into flames  
Between my anger, I lock down every chamber  
Hillside strangler, a nigga with a mask like Lone Ranger  
Rap poetic is injected into the brain athletic  
Build off of rhymin' calisthenics  
I'm determined, I raise a army like Hitler done Germans  
And become the Allied commander, my enemies is catching on camera  
They seek death, I begin to torture them (calm down kid take your time)  
By giving butterfly stitches, bear witness

As I hang with Jehovah's Witnesses

Older cats max with young godz that got the guns  
Out of town Big Willie niggaz best to run  
Or get stung, by the killa bee stinga from the slums  
From the young Shaolin Monks, taking heads with the tongue

Yo, yo, this is manslaughter, so what you want to do  
Last year, you ran for the border with your crew  
I flip, stacks, all the, time when I rhyme  
Libra is my sign, and can't stand swine  
When I dine, the automatic weapon  
Got niggaz steppin', in the opposite direction  
My jurisdiction, is off grounds to you clowns  
My proposition, meaning you go round for round  
Straight up and down, I broke the sound barrier  
Scarier, than a tight skirt wrapped around a transvestite  
The grammar, hype, nigga check your stacks  
Or you'll be rhyming with a broke back  
Niggaz talk about they rollin deep up in here  
The only way you roll is if you in a wheelchair

Older  
Yo, y'all calm down man calm down calm down  
Yeah, and yo

So just take your time and handle life as it comes  
Motherfuckin' Rubbabandz, the young godz comin' through  
Cause the real nigga gonna know what they gotta do  
Showin' and provin' youknowwhatI'msayin? Shaolin forever

Yo, may all the bullshit cease, increase the war fuck the peace  
Make shit hot like rockin' tube socks at Jones Beach  
N the summer, number one gunner run for cover  
Keep 'em steppin' with more Lethal Weapons than Danny Gloves  
I cock back, action packed raps and gats  
Niggaz trade mats for prats people react, to RZA sharp tracks  
Another day nother body dropped you better keep your shottie cocked  
For actin' snotty Hobbes catch karate chops  
Cause Wu-Tang live, forever and a day  
You better pray for better ways to get away when my Beretta spray  
We never play with commercialism  
The hardcore rhythm give em more hell than an exorcism

My terrordome be a clever poem let it be known  
I'm packin' chrome and rollin phatter than eleven bones  
My crew's sicker than that AIDS shit  
While others get played quick, cause we be making hits through the grave sif  
t  
My right hand man, myself and the Clan  
Gun and mic stands reverses help me see my first a hundred grand  
And to my Physical one love power crazy real  
For all them carbon copy niggaz lurkin' in the rap deal
