

## With all Disrespect

### Sick of It All

Not from a place where everything abounds  
A clash of wills so stubborn  
Assertiveness can be a real glitch  
A stony cranium, that head is sick

With what's imposed on me  
I won't comply  
No matter how things be  
That flag won't fly  
The punishment's for real  
I won't comply  
With all disrespect  
That white flag won't fly

Driven to a fault  
Abet which gets opposition  
It suddenly what looked as sure as shit  
Was such a cruel joke  
A sinking ship

With what's imposed on me  
I won't comply  
No matter how things be  
That flag won't fly  
The punishment's for real  
I won't comply  
With all disrespect  
That white flag won't fly

There is no even keel  
No level playing field  
No sign of balance here  
Capsized

Not from a place where everything abounds  
A force of wills so stubborn  
Assertiveness can be a real bitch  
Control that cranium, that shit is sick

With what's imposed on me  
I won't comply  
No matter how things be  
That flag won't fly  
The punishment's for real  
I won't comply  
With all disrespect  
That white flag won't fly
