

There's A Way

Sidewalk Prophets

When you try so hard
But you can't break free
When the voices say
This is all you'll ever be

When you pray, but you get no answer
When you wonder if you even matter
When it feels like it's all too broken
Nothing is hopeless, nothing is hopeless

There's a way
There's a way
There is a light through the darkness
When life hits the hardest
A Father who knows your name
There's a way
(There's a way)

When all you feel is pain
When the nights get long
Please don't give up
Just keep holding on

When you pray, but you get no answer
When you wonder if you even matter
When it feels like it's all too broken
You are not hopeless, you are not hopeless

There's a way
There's a way
There is a light through the darkness
When life hits the hardest
A Father who knows your name
There's a way (Keep holding on, keep holding on, keep looking up)
There's a way (No backing down, no backing down, no giving up)
There's a way (Keep holding on, keep holding on, keep looking up)
There's a way (No backing down, no backing down, no giving up)

So bring your heavy heart
Bring your broken faith
See His open arms
See the empty grave

There's a way (Oh-oh-oh)
There's a way (Oh-oh-oh-oh-oh)
There is a light through the darkness
When life hits the hardest
A Father who knows your name
There's a way (Keep holding on, keep holding on, keep looking up)
There's a way (No backing down, no backing down, no giving up)
There's a way (Keep holding on, keep holding on, keep looking up)
There's a way (No backing down, no backing down, no giving up)

There's a way
