

## Graveward

Sigh

With the sleepless shadows behind my back  
I walk to the grave soon to be forgotten  
I signed my name in blood so black  
How long this road could be I do not know

My fear my sorrow  
The path I have to follow  
With all of my hope  
Which once I did know

I'm not brave enough to deny what they have said to me  
I'm not brave enough to doubt  
I'm not brave  
No I am not

Will you choose to believe their lies?  
Knowing that their lies are old  
Let me tell you, I'll choose to close my eyes  
So that I don't have to see the truth

Graveward I'll walk in despair  
Only the dark shall be my prayer  
Feel your dark and feel your breath  
Feel your dark and feel your death

Millions of lies are in my eyes  
A death to die, I will die my death  
Millions of dreams waiting to be lost  
A death to die, I will die my death

The tamed sheep, their souls to reap  
Like a one night dream so vague as it seems  
My grief in blood that is running so deep  
For us the meek, There will be no relief

Tears drop on the road paved with lies  
The road once I thought paved with hopes  
The tomb they discard, the bell of doom they ring  
It blooms but soon to be withering

Graveward leads my path  
Graveward I'm walking alone  
Graveward leads my path  
Graveward I'll be gone
