

# Dynamite

Sigrid

Don't know where I am with you  
Forgetting time and space with you  
Oh, I wish we had a common view  
You see my red as blue  
I don't belong in your universe  
For better or for worse

I'm the same, but I'm bolder  
You'll get home, but I'm on my way out now  
Not the same destinations  
I will stay when you get off the train

You're as safe as a mountain  
But know that I am dynamite  
Oh, you're as safe as a mountain  
But know that I am dynamite

Your hand is warm but my heart is blue  
Is blue now  
I miss you, but I've got things to do  
Oh, I wish we had a common view  
You see my red as blue  
I don't belong in your universe  
For better or for worse

I'm the same, but I'm bolder  
You'll get home, but I'm on my way out now  
Not the same destinations  
I will stay when you get off the train

You're as safe as a mountain  
But know that I am dynamite  
Oh, you're as safe as a mountain  
But know that I am dynamite  
Know that I am dynamite  
Know, know that I am dynamite  
Know that I am dynamite

Oh, it's so cold here  
'Cause I left my heart to be with you  
Oh, it's so cold here  
'Cause I left my heart to be with you

I'm the same, but I'm bolder  
You'll get home, but I'm on my way out now  
Not the same destinations  
Know I will stay when you get off the train

You're as safe as a mountain  
But know that I am dynamite  
Oh, you're as safe as a mountain  
But know that I am dynamite
