

"Let me drown within this river, let me drown in this deep silence...

...Where I will be forever painless"

What painful the chalice  
She drank so calmly  
There was his arms  
Around her naked body

She still tastes his lips  
With her mouth  
A fragile rose  
Was her heart broken

Still was the night  
That peaceful night  
When he arose  
To walk away

You, speak to her,  
Speak not of love  
When all she had  
Forever gone

Fall with her  
Bleed with her  
Betray her  
Shred her soul

"Misera nobis  
Dies illacrimo"

Still is the night  
Silent the echoes  
Into the void she drowns  
Oh let the ocean devour her  
Lifeless  
Painless...
