

Was she all you need
Was she all you want
Did you reptile smile
When you hate her cunt
Was she not afraid
Was he not in heat
Did you lure them in?
Let the pain begin!

And now it's time to dance
Come darlings take my hand
We'll take you for a sway
We'll take you all the wat

Did you trash him down
Did you make her bleed
Did she beg you near
Or did she cry in fear
Did he face the beasts
Did she scream for joy
Was she torn apart?
Did you bring her heart to me!

And now it's time to dance
Come darlings take my hand
We'll take you for a sway
We'll take you all the wat

We'll make you twist and turn
We'll make you bleed and burn
Come darklings drown in me
Come my love, drown with me
We'll make you twist and turn
We'll make you bleed and burn
We'll twist and you'll turn and
You'll bleed asnd you will burn!!!

My nightmare waits for you
For us I'll make the truth
Now that I have you here
You'll never need to fear

Our naked dance begins
Worms crawling from our skins
You've become one of us
You've become one with us
My dark ones, Seducians
