

Superstar

Silk

See, I been watching you from afar
Twinkling like the star that you are
And I'll take it personal
If you say that you can't go

Oh, just wanna give you thrills you know I will
Oh me oh my
You're shining so bright
You're a twinkle in my eye

If I can get you in my car
No matter how far, I'll come and get you
'Cause you're my superstar
Hear me twinkle on my girl, where you are

If I can get you in my car
No matter how hard, I'm gonna get you
'Cause you my superstar
Hear me twinkle on my girl, where you are

I'm doing ninety in a sixty mile zone
Trying to quickly get you to my throne
'Cause you're my queen, and I'm your king
Now soup it up so we can do this thing

'Cause I want you, and you want me
How can we do it? Hmm, let me see
You need a ride, I got a ride
You can't run and you can't hide, no

If I can get you in my car
No matter how far, I'll come and get you
'Cause you're my superstar
Hear me twinkle on my girl, where you are

If I can get you in my car
No matter how far, I'll come and get you
'Cause you're my superstar
Hear me twinkle on my girl, where you are

If I can get you in my car
No matter how far, I'll come and get you
'Cause you're my superstar
Hear me twinkle on my girl, where you are

If I can get you in my car
No matter how far, I'll come and get you
'Cause you're my superstar
Hear me twinkle on my girl, where you are

What's up can I pick you up?
You know that you my superstar
No matter how far
I'll come and get you with my car

Now what you wanna do?
You know I wanna be with you

It's your body that I wanna taste
I ain't got all day to wait

If I can get you in my car
No matter how far, I'll come and get you
'Cause you're my superstar
Hear me twinkle on my girl, where you are

If I can get you in my car
No matter how far, I'll come and get you
'Cause you're my superstar
Hear me twinkle on my girl, where you are

If I can get you in my car
No matter how far, I'll come and get you
'Cause you're my superstar
Hear me twinkle on my girl, where you are

If I can get you in my car
No matter how far, I'll come and get you
'Cause you're my superstar
Hear me twinkle on my girl, where you are
