```
Blame it on the weather, but I'm a mess
And this February darkness has me hating everyone
And I know I need your comfort, but this drama makes me sick
                                   Emi
And the longer I lay here I know it's harder to get up
without you
          С
Lose another day here
           Emi
Lose another year here
I'm with you
Find me something out there that's making sense
                                  Emi
And it's just another trend carefully hidden in your dress
                                Emi
And the cycles neverending and the fashions overdone
And the further that I run away, the further I'll come back
to shelter...
          С
Lose another day here
          Emi
Lose another year here
I'm with you
You are the fire on my apartment floor
        Emi D C
Sixteen stories, I'd rather burn than fall
       Emi
It isn't fate that took us all by storm
            Emi G
It's just the turn of a card
C Emi Ami
Lose another day here

Lose another year here

I'm with you
